

Superstar Academic Video

Human civilization has evolved to the age of the Internet, people no longer worry about the source of information. How to select the valuable information has been people's biggest worry. Now, some famous scholars are willing to share their academic essence with people in the form of video. Superstar Academic Video came into being! We know that the major transformation of transmission will bring unparalleled significance for humanities around the world.

We hope that we can build the bridge of cultural heritage and dissemination with the most authoritative scholars; we would like to do our best!

Superstar Academic Video recorded lectures or speeches given by famous scholars and academic authorities from home and abroad. These videos then are stored and disseminated using advanced imaging technology. By doing this, the constraints of time and space could be break and all the teachers are pushed forwards in front of the whole society.

Superstar academic video now covers several catalogues such as literature, history, academy, philosophy etc. Till May, 2010, over 1000 professors and scholars have jointed this project and over 15000 sets have been shot within which 10000 have been produced. There are mainly three kinds of videos: quality course, theme lecture and master interview. All the themes and professors are designed and chosen by the Superstar Academic Committee so you may rest assured about the authority, the technicality and the leading position of the video.

The Features of Superstar Academic Video
