## Audio duplication

Audio recordings (analog cassettes and tapes, digital CDs, etc.) in Special Collections can only be listened to if a user copy is available. Where a user copy does not exist, one will need to be made, at patron expense. Copies for personal reference use are only provided in digital (CD) format. Other restrictions on copying may also apply.

### Costs:

- Where only an analog tape exists (original or user copy), the basic cost for duplication, plus archival and listening copies, is \$50 per 60 minute CD.
  - A \$25 service fee will be added to these audio duplication orders.
- Where a digital copy already exists (on CD) additional CD copies are \$15 per CD.
  - No service fee will be charged for duplications of existing digital copies.
- Washington state sales tax, UW overhead, and any shipping charges will be added to all of the above orders.
- Conservation or other special handling requirements of some materials may incur additional fees and charges.

For other copying formats or needs, consult the Service Desk. We no longer support duplication of analog tape to analog tape.
