SIERRA CLUB. NORTHWEST OFFICE.

Acc. No. 2678-2

GUIDE

Doug Scott, Northwest representative of the Sierra Club and the Federation of Western Outdoor Clubs, July 1973 - December 1979, transferred these records upon leaving office. Certain files which pre-date Scott's term of office were begun by Brock Evans.

None of the material was foldered, though Scott indicated by labeled boxes that the material primarily documented five issues: The Eastern Wilderness Act, Hells Canyon, Alpine Lakes, The Endangered American Wilderness Act, and Idaho Timber Issues. These have been treated as subgroups and appear first in the arrangement, reflecting Scott's evaluation of their importance relative to other records in this accession. The Idaho Timber Issues "subgroup" has been further subdivided into four National Forest sub-subgroups.

The remaining material was received in several boxes labeled "Miscellaneous Important" and "Miscellaneous Unimportant". The "unimportant" boxes were weeded by two-thirds of their original volume. No attempt was made to organize this miscellaneous material by specific issue; instead most of the material was grouped by state then sorted into record series for each state. Some of the records, however, concern national issues and cannot be filed by specific state. This national level material is further divided into National Wilderness Issues (land use, wilderness designation, etc.). The residue has been arranged as Miscellaneous Issues of National Scope. All three national divisions are treated as subgroups, i.e., material within each division is arranged by record series. Dates for all records, state and national are ca. 1972-79.

The remaining records concern organizational matters of the Sierra Club, and include correspondence, minutes, memoranda, financial records and policy information.
