GUIDE

At present these papers are in the order in which the donor had organized them, broadly grouped by activity or subject, such as "Valdez Main Construction" or "Big Game Crossing." The Container List is simply a listing of his folder headings.

When it was possible to find clues in the material, the numerous acronyms have been spelled out the first time they appear.

Since all the papers fall within a seven year period, 1971-1977, span dates have not been noted for individual folders.
